Gen. 1 file

Deputy Commissioner's Office
Mysore District
Dated Mysore 6th January 1891

From

The Deputy Commissioner
Mysore District

To,

The Chief Secretary, to the Dewan
of Mysore
Bangalore

Sir,

With reference to your official Memo No 366, dated 20th August 1890, forwarding for report, petition from Varadachary of Kalale Village, in the Nanjengode Taluk, I have the honor to State that the petitioner is in the enjoyment of the marginally noted lands Situated in the Chettanhully Village Heggeddavenkotta Taluk. These lands have been assessed at wet rates in the Survey Settlement.

No.	Ex. Gen. No.	Area	Assessment Rs. As. Ps.
65	17-26	4	4
66	7-23	4	14

2. During the Fasli of 1888.89, the petitioner presented a petition to the Deputy Commissioner, stating, that owing to want of water, he raised no wet crops on his lands, since the time wet assessment was imposed upon them, that on his repeated representations made to the Channel Department, the Executive Engineers gave him Endorsements saying that until the Channel was

improved, no water could be Supplied to his lands, and that, therefore, orders Should be issued either to Supply his lands with water or to assess the same at dry rates, till water was Supplied. He also requested the refund of the difference between wet assessment paid by him and dry crop rate, as his lands were Banjar

3. The petition was forwarded to the Amildar, who, after inspecting the lands made a report Stating that they were lying Banjar, that the State ment that no water was Supplied to them was true, and that the Chan= nel which Supplied water to the lands in question, required Some repairs.

4. "Upon this, the then Deputy Commis= sioner, Mr. Ananda Rao, having inspect= ed the Spot, issued an order to the Amil= dar Stating that the lands were not irrigable and that until Such time as the D.P.W. repaired the Channel and Supplied water to the lands, which did not, however, Seem to be possible till the Channel was ex= tended, the land Should be assess= ed as Dry. Further, the Amildar was directed to Submit the Akaraban for Correction together with a remis= sion Statement and refund bill for the difference of wet and dry assess= ments from Settlement year. —

5.

5. The Amildar accordingly submitted
Akarabund & which were forwarded
to Survey Superintendent for Correction.
6. The Survey Superintendent in re-
=ply stated in his yadi No. 3689, dated
6th November 1889 that the classifica-
tion records showed the lands in ques-
tion) to be irrigated by the waste weir
water of tank Survey No. 45, and
also by the water of Katte No. 64, as
well as by the usual rain water. He
declined therefore to make any altera-
tion in the rates of assessment al-
ready fixed. He also stated that
if any alteration was made in the
present case similar Complaints
would be received from others.
7. Orders were, therefore, issued
to the Amildar to give an Endorse-
ment to the petitioner to the above
effect.—
8. The Canarese records bearing
on the Subject together with the
petition and its enclosures, received
with the memo under reply, are
herewith submitted.

I have the honor to be,
Sir,

18-7-91

No. 320

Deputy Commissioners Office
Mysore District

Dated Mysore 15 July 1891.

From

D. Nanjunda Row Esquire
Offg. Deputy Commissioner
Mysore District

To,

The Chief Secretary to the
Government of Mysore
Bangalore

Sir,

With reference to your docketed No. 14224/853 of 18th March last, requesting to verify and Submit further report about the imposition of wet assessment on Survey fields Nos. 65 and 66 of Chattanahully Village, Heggeddavenkotta Taluk, I have the honour to State that Mr. Krishnaiyengar Assistant Commissioner inspected the lands on the 29th April last, under orders of the Deputy Commissioner.

He agrees with Mr. Ananda Rao in stating that the wet assessment imposed on the lands should be converted into dry. I however respectfully beg to State that I differ from both officers. The lands in question, it will be seen from the copy of the map Submitted by Mr. Krishnaiyengar, get water from the Kodihalla tank No. 46, as well as from Govinkatti in No. 64. In addition to this they get rain water. In consideration of these facts the Survey Department

has imposed a low rate of Wet assess-
ment Viz^t. Rs 2-4-0, and 2-5-0,
respectively for Nos 65 and 66. These
rates are in my opinion not excessive.

The Survey Superintendent is, I think
right in his opinion that if the Govern-
ment were to begin to revise the Settle-
ment there would be no end to such
Complaints. I would therefore recom-
mend that the Complaint of the Petitioners
be rejected. It is left to the option
of the Petitioners to retain the land
paying the assessment imposed
or to relinquish them.

I have the honor to be,
Sir,
your most obed^t Servant

D Monro
Offg. Deputy Commissioner
Mysore District

Memorandum

Rangachar/Gopalacharya relating
to the Complaint of Kalale
Viradachari.

Rangachar and Gopal
Krishnacharlu held certain
dry lands in the Chelanahalli
village of the Heggadadevankote
Taluk. In 1860 (Kandri)
they proposed to bring these
and the adjoining lands
under wet cultivation if
Government procured the
Sluice of Heliyoor Katte (No 5
of Nikanakoondi) and the
Channel feeding the "Katte."
Some urgent repairs were
Executed and the Channel put
in working order for the time.
Gopala Krishnachar and the
Rangachar Executed a "Moo-
chalika" binding themselves
to pay wet assessment at 3 pa-
godas per Kandi on 12 and odd
Kandies of land Commanded
by the Channel. In Doormati
and Doondoobhi 1861 and 1862
the annual assessment of
Rs 117-2-4 was recovered.
In Roodirodgari 1863 (author
Rangachar withdrew his Con-
-nection with the Joint pattadar

which included Kandies of
land assessed at Rs 63·4·4
was converted into dry on
the ground that water did
not reach it and dry assessment
of Rs 6·9·8 was charged there
in lieu of Rs 63·4·4 and there
was collected the remaining
5 Kandies of wet-
land assessed at Rs 48·14·0
have brought to Gopalakrishna
Thero Khate charging a
total assessment of Rs 55·9·8.
Next year he resigned the
dry portion of his holding
keeping only the wet land of
Rs 48·14·0. In Krodhana
1865 the Channel having
failed half of the wet assessment
which Rs 24·7·0 was struck off
his Khate under Huzur order
No 464 dated 30th April 1865.
In Prabhava 1867 the Channel
Department having failed to
supply water to the "Katte" through
the Channel wet assessment of
Rs 17·9·2 was retained on only
one undivided Kandy of land
nominally under wet cultivation
the other portion being treated
as dry land charged with dry
rate and in Vibhava 1868 the
whole of the holding here, regarded

as dry and dry assessment of Rs 5-3. I was charged under Higher orders. This was continued till the year Fasli 1884 when in the Survey Settlement the holding was formed into 2 Survey Nos. 65 and 66 of 15 acres and 9 Guntas in total of which 8 acres and 18 Guntas were charged with wet assessment. Gopal Krishnachandra Venkat Narasimhachar and his Hissedar Kalalé Varadachar however since been Complaining of want of water to irrigate their lands charged with wet assessment. During the Jamabundi of 1888/89 Mr. Ananda Rao Deputy Commr having inspected the lands made the following order.

"The land is now unirrigable
"and till such time as the
"D. P. W. Construct Channel
"(which does not seem probable
"till the Channel is improved)
"the land should be regarded
"as dry. Amildar should
"submit Akarabund for
"Correction and a remission
"Statement or refund bill for
"difference between wet assess-
"ment and surrounding dry,
"from Settlement year."

In pursuance of the above instructions the "Akaround" was sent for correction to the Survey Superintendent who declined to make any alteration in the ascertainment on the ground that the settlement papers showed that the lands under reference were irrigable by the waste weir water of Tank Survey 1246 (not 45 as stated in the Survey Superintendent's letter) of Mōtamahulli and "Kalle" situated in No 64 as well as rain water and that such alteration if any be allowed would open a way to complaints all over the Province -

This case appears from the Deputy Commissioner's docket No 9 dated 3rd April 1891 to have been laid before the Government and a further inspection ordered.

I inspected the lands on the morning of the 29th April 1891 in Company with the Amildar. I submit herewith a plan of the two Survey Nos showing the sources of water referred to by the Survey Superintendent. The waste weir

2/

2

weir wall of tank survey No 46
when it overflows
runs over portions of the two
survey nos: as seen in the map -
There is a small "Gani" katte
in No 64 which has no sluice -
and which does not appear
to have ever been used to
irrigate the lands in question.
The supply of water from the
waste weir of tank No 46 cannot
be depended upon throughout
the whole of the cultivating season -
The Channel which supplied
water to the Halagoor Katte No 5
of Nallamakoondi from which
the land in question was irri-
gated in 1861 to 1863 appears to
have been abandoned and
is completely out of repair - My
view of the case is in full
accordance with the record
of the inspection made by Mr
Ananda Rao Deputy Commissioner
in 1889.

L.S. - (7)

Letter from the Dy: Commissioner of Mysore
Dated 15th July 1891, No 320.

R.
2171-2
Order thereon 1st No 68

As it appears from the memo of the Asst. Commr. who inspected the lands under notice that Nos 65 & 66 do not receive any irrigation from the Govindakatte in No 64, and that the waste weir water of Tank No 46 runs over the fields only when the Tank overflows, and that its supply cannot be depended upon throughout the year, the Government are of opinion that the numbers should be classed and assessed as Dry. The Superintendent of Revenue Survey will be requested to revise the assessment accordingly. The Government note that all the lands in the neighbourhood, i.e, Nos 64, 63, 62 have also been classed and assessed as Dry
